

MALTINGS

HIGHLIGHTS

AUTUMN 2021

WE'RE SO HAPPY TO BE BACK

Although our two galleries have been open since May, we've really felt the absence of our full programme. So after months of planning, we're thrilled to be able to welcome you back to live events and films at Eastern Lane from September.

You can get full details on our new website, but to help spread the word, we've produced this short taster of the highlights in store – culminating in the return of Berwick's very own professional Panto, which we hope will be a must-see celebration for our whole community and the cornerstone of a far more festive Christmas for us all this year.

We can't wait to see you.

MALTINGS TEAM

A NEW STATE-OF-THE-ART VENUE FOR BERWICK

Central government confirmed funding from the Borderlands Inclusive Growth Deal for a New Maltings venue in March 2021.

The major transformation of our Eastern Lane site aims to provide a green and accessible building, light and airy, and capitalising fully on our panoramic view across the mouth of the Tweed. Specifically, we aim to provide a larger auditorium with extra seating, 2 dedicated cinema spaces, restaurant and bar, studio theatre, sound and film recording facilities, as well as flexible-use education, event, office, screening and rehearsal spaces.

Right now, we're working closely with Northumberland County Council on the initial design stages, with business as usual on site until Spring 2023. We're planning to move our film programme to a new pop up cinema at Berwick Barracks, use a range of other local venues for live events, and maintain our full visual arts programme throughout the two year build.

You'll find regular updates on the project on our website, all the way through to our Grand Reopening in 2025.

GET YOUR POPCORN READY, THE BIG SCREEN IS COMING BACK

Nothing beats watching a movie on the big screen, so we're looking to pack our Autumn programme with as many titles as we can - from all the latest upcoming blockbusters, including the new James Bond 'No Time To Die' on its opening release day, to great films you might have missed whilst we've been closed. Our website is the best place to stay up to date of all the films we're bringing to you. maltingsberwick.co.uk

VISUAL ARTS NEWS

The Maltings (Berwick) Trust is the registered charity which operates our venue and galleries. We've decided to streamline the whole organisation under a single identity so from September our visual arts programme will operate under the Maltings identity rather than as Berwick Visual Arts, sharing a single website and combining on social media. We want to ensure the full range and depth of our cultural programme is clear, distinctive and easy for everyone to recognise – with visual arts as a crucial, much valued strand of activity and running exactly as before, delivered by the same team, with scope to expand in the future.

OUR NEW LOOK ONLINE

We've been working behind the scenes on a new website since the start of this year, and it's launching mid-September. Not only is it easy to buy tickets and browse our events, and very mobile-friendly, it's vibrant, visual and really reflects the range and impact of our work to the full.

We're also introducing a fresh new design and identity for all things Maltings, which you'll see rolled out across our three venues over the coming months.

So keep maltingsberwick.co.uk bookmarked and be amongst the first to see it for yourself.

GEMMA BURDITT: FUTURE LANDSCAPES

The Gymnasium Gallery
free

The agricultural landscape of Britain shapes our soils, waters, biodiversity and is part of the nation's emotional identity. In the light of our exit from the Common Agricultural Policy (CAP) and the impending climate crisis, how we use and value land is likely to change dramatically in the next decade.

Illustrator and animator Gemma Burditt has worked with 6 land-based businesses in Northumberland over a two year period to create a portrait of this changing landscape. How will these communities adapt to these pressing events and how will this affect both their relationship with the landscape and the physical nature of the land itself?

Future Landscapes was commissioned by the Maltings with support from Newcastle University's Centre for Rural Economy and Institute for Creative Arts Practice.
